Feedim : regular working mode

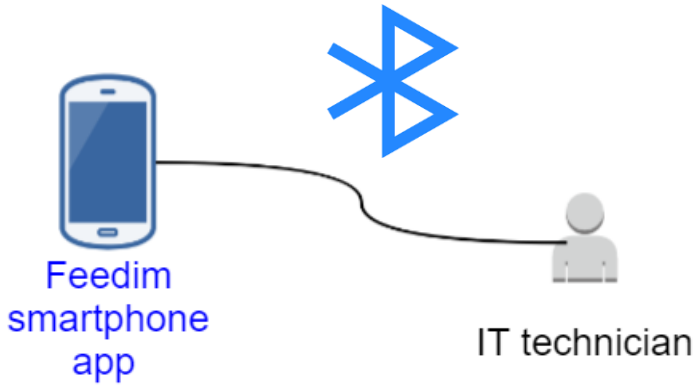

Feedim : regular working mode

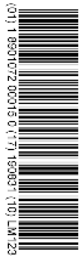

Feedim smartphone app

- For initial IT configuration
  - WiFi SSID and password
  - Dim3 Server information
- App connects to a Feedim device using Bluetooth

Feedim pairing

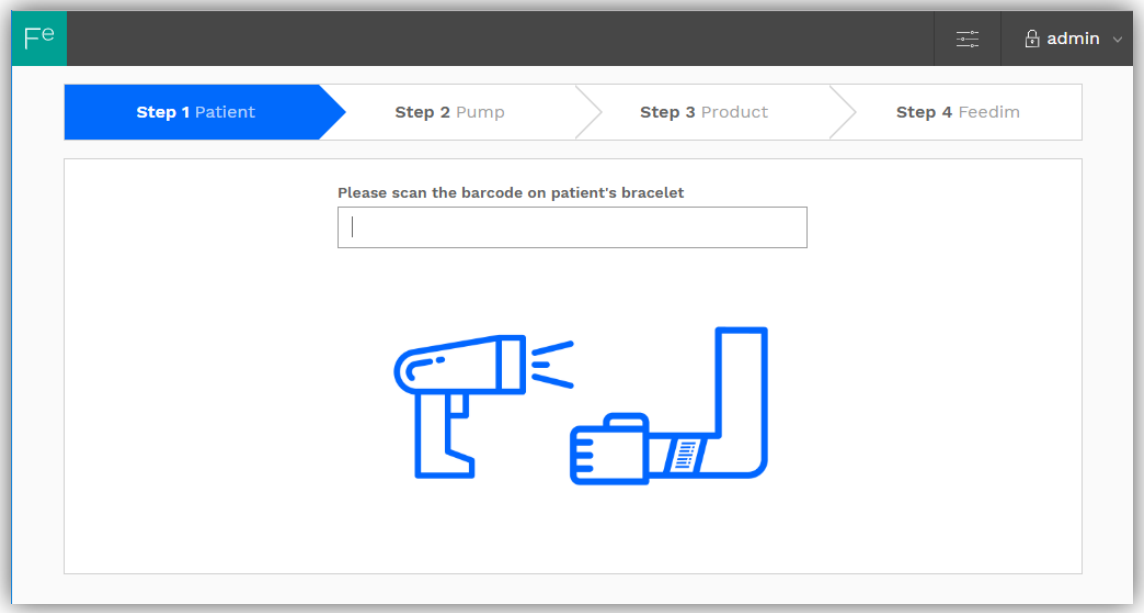

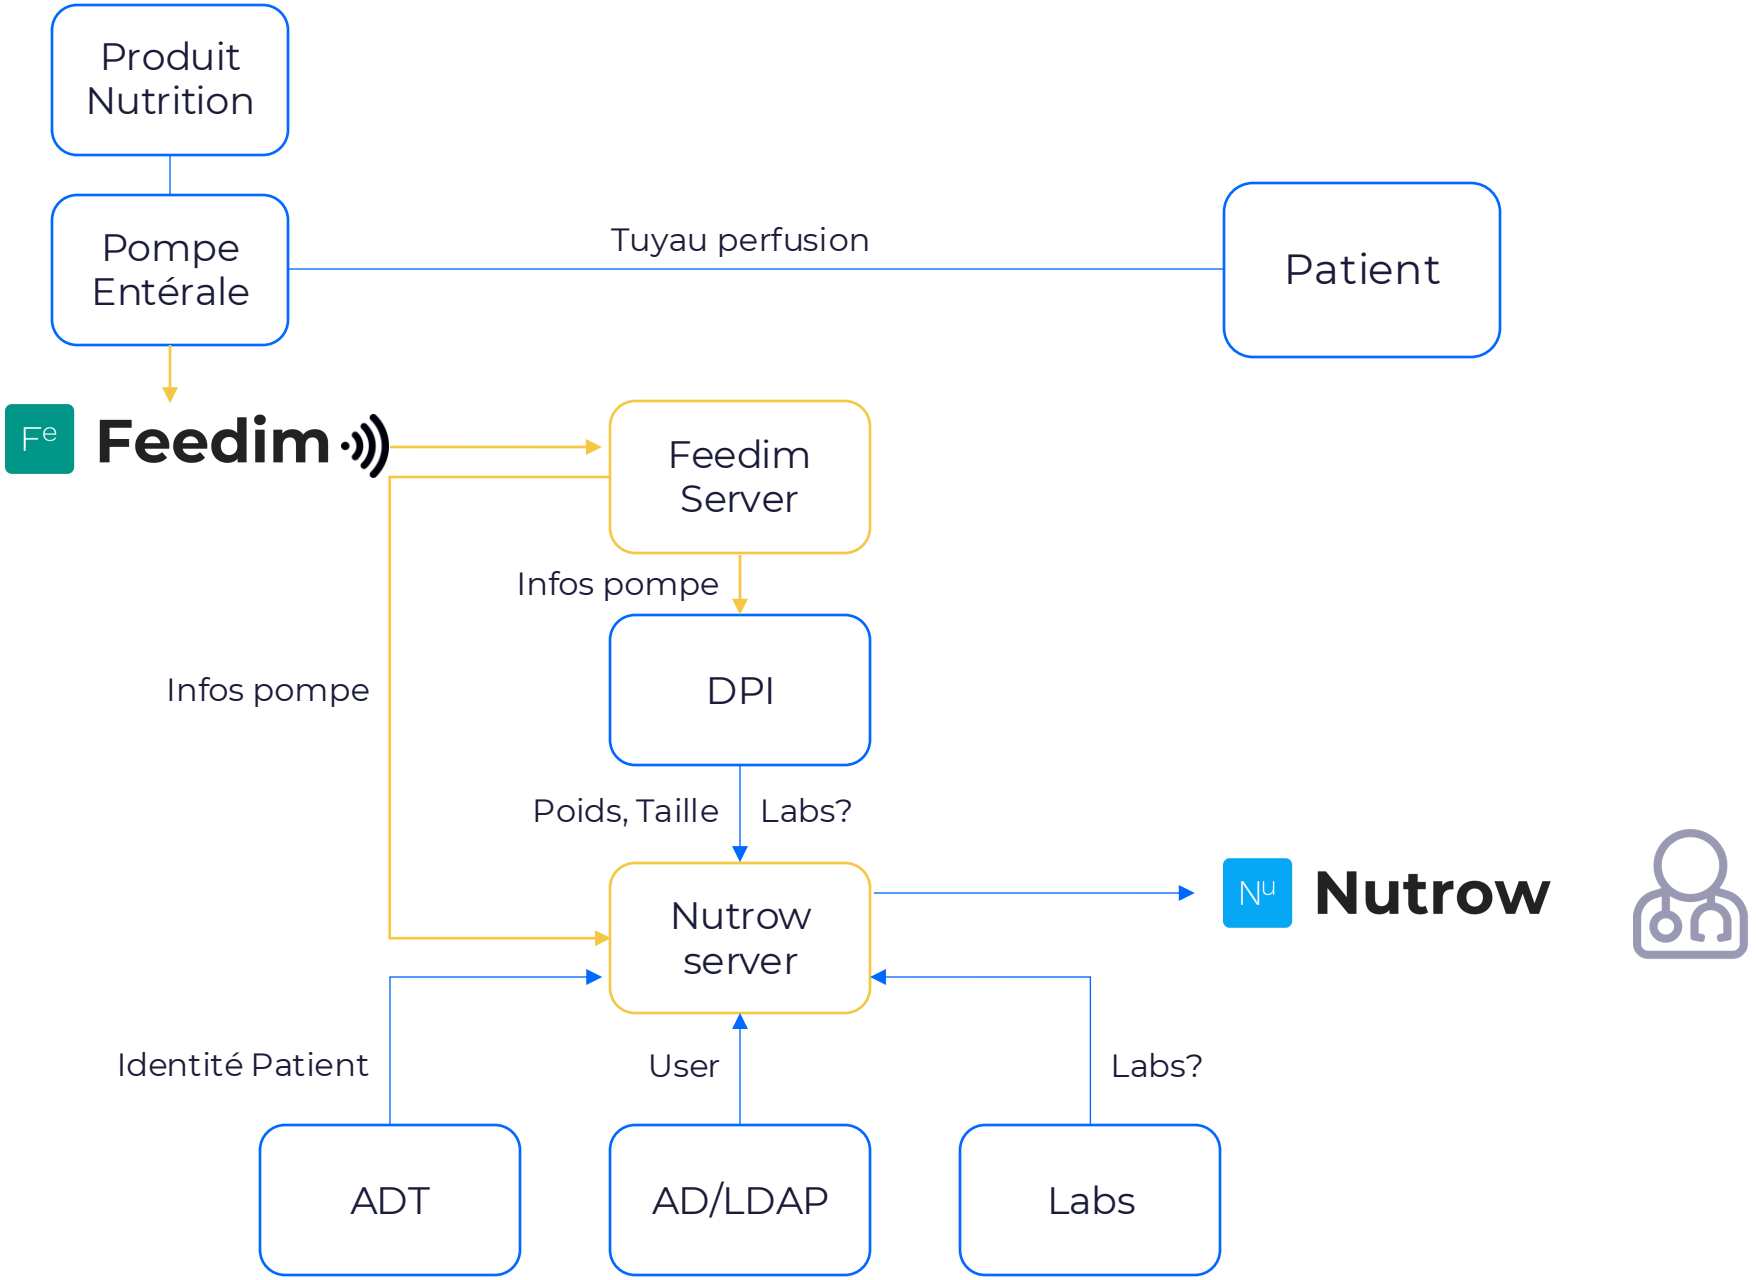

- 4-steps wizard

Trials : manual encoding

- Administrative patient data
  - Name, birthdate, sex
- Admission data
  - Start/end date and time
  - Bed, unit, physician
  - Height and usual weight
  - For burnt patients : %age, t°, usual intakes
- Daily nurse data
  - Weight
  - Temperature
  - Water balance
  - Quantities of nutritional intakes
  - Relevant Labs

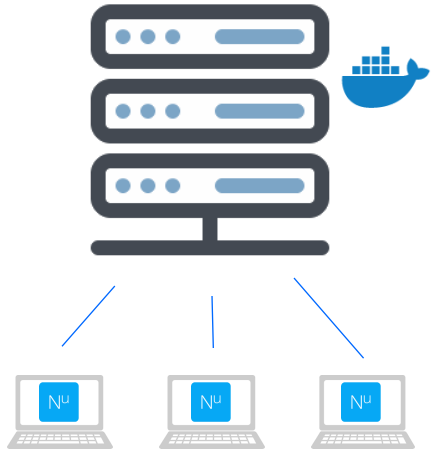

+ Initial configuration of Nutrow
  - Nutritional Products and their compositions
  - Labs analyses with their ranges
  - Nutrow users

Trials : deployment alternatives

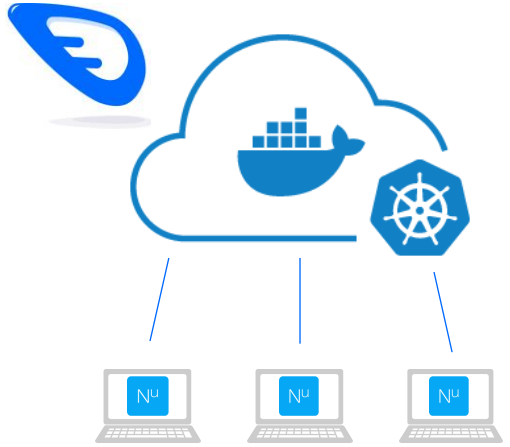

Standalone laptop

On-premises server

Google Kubernetes
